HOLLOWAY'S DREAM GARDEN

SILVERY TETON

The Home Of

JANE WITHERS

and
Modern Glads

Gage T. Holloway

Henry, Nebraska

It is truly a privilege to again send our list to the finest lot of customers and friends that ever grew Glads and while you could get along nicely without us, we wouldn't fare so well in the absence of your appreciated letters. They really do make life worth living and it perhaps thrills us even more to read these fine letters than to see the "Masterpieces of Gladdom" unfold their irresistible beauty in our garden. We prize your friendship and that of the many customers who are constantly coming to us, and our sincere thanks and appreciation, as it is you who have increased our business beyond all expectations in the four short years we have been selling bulbs.

Yes; it takes plenty of money to buy printers ink,
And display a lot of pictures including pink,
So again will not be content to take the risk
In preparing anything better than a modest list
Useless expenditures we perhaps all know
Can only make more costly bulbs for the show.
So we prefer to come out with a man to man guarantee
To pass the saving to you with more extra bulbs free.
We have dug the bulbs and have them in trays
Hoping to assist our friends with wonderful displays
Offering perhaps the magic carpet of glads for you
That will teem with surprises the whole season thru.

"THE MOON AGAIN"

Still using that great little "Moon Sign Book" of 256 pages published by Llewellyn Publications, Ltd., as our planting guide and giving the bulbs that extra lift necessary to perfection. Common almanacs . . . Why they are worthless for planting purposes: As an illustration—When the drug store almanac reads "Moon is in Cancer" (the most fruitful sign in the zodiac) it may be in Leo, a hot, dry, barren sign, not considered good for planting, as the almanacs use the constellations, while astrology correctly uses the planets' places in the zodiac. Better refrain from the "Big Laugh" until such time as a few experiments are conducted and then perhaps the laugh will be on the other fellow who has failed to profit by the use of these signs. Not coming from the good state of Missouri, we incidentally had to be "shown" anyway, and while we could write out the results of many experiments, space will not permit. But we will contest the erroneous belief that the planets have no purpose in this great universe. This valuable book may be procured from us for \$1.05 postpaid, and supplied with all bulb orders aggregating \$5.00 for .75c each, and on orders of \$10.00 or over, .50c each. A new book is annually compiled giving the new dates for that year.

"SILVERY TETON"

Not the best variety in existence, but perhaps the best in its color class. If you are partial to Dream O' Beauty for reason of the color, this will be your favorite. The perfect placement on a much taller spike, straight as an arrow, together with the added silvery sheen will give hybridizers something to shoot at for some time to come. To the best of our knowledge the scarcity of stock permitted this to reach only two shows the past season, winning Grand Champion for Mr. B. E. Shue of Champaign, Ill., at the Marion county show, Indianapolis, and first for Mr. A. J. Amsler at the Iowa state show, who won three blues with it at Sioux City the previous year. Mr. Amsler and Mr. W. L. Laughlin of Jewett, Ohio, (who does not exhibit) both report: "Better than ever this year and 'Hats off to Teton.'" Scarcity of stock will not permit a reduction in price this season. However, you may include this with the retail items in our General Prepaid list that are subject to discount. Priced \$3.00 each for any size bulb and no bulblets for sale.

"JANE WITHERS"

The Zimmer seedling that was by far our best lavender the past season and we grow most of the new ones. This reaction is responsible for the purchase of one-half the stock from Mr. Fred Vornheder of Battle Creek, Mich., and fortunately the stock will permit of introduction at a much cheaper price than is usually asked for anything approaching this in desirability. It was entered in the undisseeded seedling class at the Ohio State show the past season, where it placed first and as we understand was in the running for the American Home Achievement medal, losing only by a small margin. We have reliable information that in a display at the Jackson County, Mich., show, a vase was placed on each side of a fine vase of Minuet and with the result that

Withers seemed to get all the attention. Mr. W. W. Gillespie of Algona, Iowa, writes: "Had my spikes been open for the show, would certainly have 'gone to town.'". A well known grower advises that he had one spike opening 14 florets in the house, all in good condition. "This has us beat" and would conclude that this bulb must have been planted "exactly at the right time of the moon." If you like beautiful dark green foliage Withers will not be surpassed by any variety grown and will say without hesitation that in our honest opinion, we have at last found the real lavender cut flower of the future and thanks to Mr. Zimmer, the originator. Priced @ \$1.00 each for any size bulb—No. 1. to No. 4 inclusive. 10 for \$8.00; 25 for \$15.00. (No small bulbs or bulblets for sale). You may also procure stock at this price from Mr. Fred Vornheder, 28 Wentworth Ave., Battle Creek, Mich., and perhaps a few other Michigan growers who have asked to list it. From our planting of twelve trial No. 1 and No. 2 bulbs, planted June 20, the past season, we derived 104 bulblets, mostly large. Mr. Vornheder advises that they germinate and grow readily, but further states that these bulbs should be planted early and dug late for good bulblet increase. A good guess that bulblets will not be offered for sale another year and these bulbs should make a good investment. Other good lavenders, but if you want the best, this is your opportunity. (This may be included with retail items in our General Prepaid list that are subject to discount).

ALSACE (Benedict-1941) Buff-apricot. Said to be very good. Best spike recent introductions N.E.G.S. Seedling show 1940. Also won in all classes shown. Priced \$1.00 each for large bulbs (No discount).

EDITH GRACE (Harder-1941) White with beautiful wine red blotch. American Home Achievement medal winner and also winner in all classes shown. It is evident that prize glads can still be originated in the good state of Indiana as well as prize corn. Priced each: Lge., \$1.00; Med., \$.75; Sml., \$.50; Bulblets 12 for \$1.00 (No discount).

WHITE GOLD (Scheer-1941) Outstanding cream of mammoth size blending to a light gold throat. Exhibited at four major shows in 1940 winning American Home Achievement medal and six other awards. Priced \$3.00 per bulb any size. No bulblets offered separately, but purchasers of bulbs may order ten bulblets for \$3.00 with each bulb bought. (No discount).

MARSEILLAISE (Scheer-1941) Very large rich glowing scarlet with narrow cream line in throat petals. (Legion Trial Gardens comments: "Excellent red, all spikes hard to beat.") Priced each \$2.00 per bulb any size; Bulblets 10 for \$2.00. (No discount).

TREASUDY GOLD (Wilson) Very large capucine orange of champion calibre. Many awards at the shows. Lge. \$2.00 each. One lot of 15 bulblets for \$2.00 with each bulb purchased. Med. \$1.00 each. One lot of 8 bulblets for \$1.00 with each bulb purchased. Bulblets not sold separate. (No discount).

Note: We regret our inability to offer Mr. Salbach's Golden Goddess this season, having been advised that early orders have picked up the available supply.

Relative to our General Prepaid List: Again you may deduct 25% discount on orders aggregating \$5.00 or more, mailed not later than February 20, and 15% on orders mailed thereafter, which is equivalent to a cheaper price for the quantity buyer. 25% deposit will hold your bulbs until Spring. **THESE DISCOUNTS DO NOT APPLY TO OUR WHOLESALE LIST OR SPECIALS.**

We take much pride in our reputation of not being out done by other growers in the inclusion of extras and overcount, however, you will find your shipment even more profitable when you wish to pay transportation on your order.

THE NEW HARDY CHRYSANTHEMUM—"MUMS"

Representing 1938-39 and '40 Youdath and U. S. Department of Agriculture introductions as well as our own seedlings that will put other existing varieties in the discard.

20 divisions, 10 or more assorted, of the best named and numbered varieties for \$2.60; 60 Divisions, 15 or more assorted, of the best named and numbered varieties for \$5.00 (All labeled separately and shipped express collect not earlier than May 10th.) Your money back if these fail to outclass anything you have seen in mums. This is only a fraction of the price that well known plant growers would ask for these "new mums" if they had them to offer. You may also have the older so-called Azalcamums at the rate of 5 divisions for .25c, coming in colors yellow, pink, white, and bronze, also red, but as the red is more of a bronze with us, do not be disappointed in the color. These are the varieties that continue to be sold under fancy names.

Our stock was not divided and planted the past season until early June and the glorious sight from August to late November attracted visitors from quite a distance, dozens of cars here every day and customers taking names and numbers for their spring requirements. Incidentally we sell about everything in the newer and better plant life that one could hope to grow in this latitude. However, such sales have been confined to our immediate territory and to customers in position to call for their requirements. Have not had the inclination to ship anything but bulbs in the past and for that reason no list covering these items has been compiled for mailing.

PEONIES—Such varieties as John Dugar, Hansina Brand, Alice Harding, Mrs. A. M. Brand, LeCygne, Kelways Glorious, Myrtle Gentry, Therese, Walter Faxon, M. Jules Elie, Mrs. Frank Beach, Mrs. J. M. Kleitsch, Longfellow, Philippe Revorie, the best of the new "Japs" and singles, Officinalis, Fearnleaf-single pink, single crimson, double crimson and many other varieties.

IRIS—A fine selection of the newer and better items, including the best Sass varieties.

LILIES—The leading hardy varieties.

EREMURUS—(Often called Desert Candle or Foxtail Lily) An outstanding hardy stately perennial, spikes to five feet in hybrids, pink, yellow, orange, white etc. spikes to eight feet in *Hilamaicus-robustus*, a massive show of white.

These items are for fall shipment only. It is our intention to prepare a list covering them at that time. Interested parties will please ask for a copy and we will expect to make you a saving on your requirements.

In the past we have been favored with some exceptionally large orders and in conformity with our belief that these buyers are entitled to a special discount or "tops" in premium bulbs, we are pleased to make the following additional offer: On orders aggregating \$25.00 net, representing all classes in our list, you may have extra, 1 Lge. Jane Withers, 2 Purple Beauty, 5 Rosa van Lima, and 5 Verdenburg (your choice of

sizes). On orders aggregating \$50.00 net, you may take your choice—Either deduct 5% discount or receive extra 1 Silvery Teton (any size), 1 Zacatey (any size), 1 Lge. buff-orange numbred seedling (A very fine thing), and 2 Lge. Jane Withers. On orders aggregating \$100.00 or over net, you may take your choice—Either deduct 10% discount or receive extra 1 No. 5 Caroline Werner Gannett, 2 Zacatey (any size), 2 Silvery Teton (any size), 2 Lge. buff-orange seedling, 1 White Gold (any size) and 5 Lge. Jane Withers.

(These extras are merely additional to the blitzkreig of overcount and extras that are included with all orders. Your suggestion of items you would like will be appreciated as often they can be included).

We have sizeable stocks of Phyllis McQuiston, Smiling Maestro, Sunset Cloud and J. S. Bach in the larger sizes; Have more of these items for reason that they represent our leading cut flowers and have tried to make an attractive price on them. We also wish to mention that Goldstaub (also sold under the name of Gold Dust) is our earliest yellow cut flower and we predict Vredenburg will be even more popular than Maid of Orleans for reason of its earliness.

Our list would not be complete if we failed to express again our appreciation of the many evidences of your lasting good will and your patience during the rush season when it is quite impossible to always make prompt shipments.

We are located on the Nebraska-Wyoming state line in the North Platte Valley, often spoken of as "America's Valley of the Nile" and extend a cordial invitation to all to visit us, should opportunity offer and see our Rock Gardens, the Gems of plant life, and the newest and best in our "The Home of Unselfish Service" Gladiolus.
